ALTERNATIVE TO RONDO P35 CONTROL JOINT

Plan

[Diagram with steps for installation, including expansion joint spacers, expansion and pop-up joint section system, and external stainless steel corner setting bead.]

Notes:
- Joints must be in the same cavity but need not be opposite
- After concrete mixing has set for 24 hours, using thin cutting blades cut a 5mm joint in both faces
- Apply approved primer
- Apply approved primer to all panel surfaces
- Expansion Joint Spacers to be as per engineer's specification

Dimensions:
- 123.7 mm Pop-Up Joint

[Additional notes and measurements provided on the diagram.]
